

Functional Specification

Development ID:	CR_123
Title:	Interface Program to transfer RE contract fromSap to FTP server
Description:	This requirement need to be developed to extract RE contract, BP, BP object relationship, Rental object, measurement, Individual Object status,Company address are transferred from SAP to FTP server.
Author	Aw Chun Wah
Date	29/11/2013

DISTRIBUTION LIST:

Copy No.	Version No.	Date Issued	Issued To
01	2.0	29/11/2013	
02	2.1	11/02/2015	
03	2.2	15/10/2020	

REVISION HISTORY:

Version	Revision Date	Author(s)	Summary of Changes
V.01	09.01.2012	Aw Chun Wah	1. Get first name and last name of BP and valid from and valid to of object assignment
V2.2	15/10/2020	Aw chun Wah	Add in Transfer Protocol for Application server and Local PC.

1. Summary

1.1. Requirement Overview

Give a brief description of the requested functionality

This interface program will be scheduled as background job to extract RE contract, BP, Measurement, rental object details from SAP system and send to FTP server for Vivacity(Vivo), Alexandra Retail Centre (ARC) and Carpark Redemption System (CRS) or any other system that require basic tenancy information excluding rental costs and such sensitive information.

Flow Diagram:

Process logic:

There are 12 output files need to be downloaded into separate text files. All file are text file with delimiter “|” and with footer record. Please refer table of structure for the details.

1. RE contract

- Read information from RE contract(VICNCN), BP relationship (VIBPOBJREL) and contract status (JEST)

Extraction Logic

- Get contract information from table VICNCN by passing values for company code, project number, contract start date, contract end date from selection screen and contract type (VICNCN- RECNTYPE) not equal to Z100 (Security deposit Contract), Z320 (Non RE Contract PM) and Z220 (Property Tax Contract Individual).
- Read Business Partner information from table VIBPOBJREL with BP Role (VIBPOBJREL- ROLE) 'TR0600'(Master Tenant With Customer), 'Z024' (Inter Company) and 'Z025' (Related

Parties). Join with table VICNCN for the following column VICNCN-INTRENO and VIBPOBJREL-INTRENO and Contract no (VICNCN- RECNNR) start with Alphabet 'C'

- Read contract status from table (JEST) with column object number (JEST- OBJNR) and join with RE contracts with column (VICNCN- OBJNR)

File Name

- "Lease" with date and time, eg: LEASE_YYMMDDHHMMSS.txt.TXT

2. Business Partner

- Get business partner number, name1, name2 from Business Partner table (BUT000) for BP in the related RE contracts (VICNCN)

Extraction Logic

- Read from table BUT000 and join with table VIBPOBJREL with column BUT000- PARTNER and VIBPOBJREL- PARTNER and with BP Role (VIBPOBJREL- ROLE) 'TR0600','2024' and '2025'
- Read from table VIBPOBJREL with column RE KEY (VIBPOBJREL- INTRENO) Join with RE contract table VICNCN (VICNCN-INTRENO) and Contract no (VICNCN- RECNNR) start with Alphabet 'C' (Parameter Driven)
- Read from table VICNCN with column Object Number (VICNCN-OBJNR) join with table VIBDOBJASS column (VIBDOBJASS- OBJNRSRC)
- Read from table VIBDOBJASS with column object number (VIBDOBJASS- OBJNRTRG) with table VIBDRO column object number (VIBDRO -OBJNR)
-

File Name

- "Customer" with date and time, eg: CUSTOMER_YYMMDDHHMMSS.txt.TXT

3. Rental Object

- Get company code, business entity, rental object, unit description and floor no from table rental object (VIBDRO) for related RE Contrats

Extraction Logic

- Read from table VIBORO with column object number (VIBORO-OBJNR) and join with table VIBDOBJASS with column object number (VIBDOBJASS -OBJNRTRG)
- Read from table VIBDOBJASS with column object number (VIBDOBJASS- OBJNRSRC) and join with table VICNCN with column object number (VICNCN- OBJNR)
- Contract no (VICNCN- RECNNR) start with Alphabet 'C'. (Parameter Driven)
- Usage Type (VIBORO -SNUNR) is smaller than 5000.
- Remove Duplicate Value

File Name

- "UNIT" with Date, Time. Eg: UNIT_YYMMDDHHMMSS.txt.TXT

4. Measurement

- Get Company Code, business entity, rental objects and etc (Refer table of structure of control) from table unit of measurement (VIBDMEAS) for related RE contracts

Extraction Logic

- Read Measurement details from table VIBDMEAS with column RE Key (VIBDMEAS - INTRENO) and join with table rental objects (VIBDRO) and column RE Key (VIBDRO- INTRENO) and column Measurement Type (VIBDMEAS- MEAS) equal to "Y20"
- Read from table rental object (VIBDRO) column object number (VIBDRO-OBJNR) and join with table RO Object assignment (VIBDOBJASS) with column object number (VIBDOBJASS- OBJNRSRC)
- Read from table RO Object assignment (VIBDOBJASS) with column object number (VIBDOBJASS-OBJNRSRC) and join with table RE Contract (VICNCN) with column object number (VICNCN- OBJNR)
- Contract no (VICNCN- RECNNR) start with Alphabet 'C'. (Parameter driven)
- Usage Type (VIBORO -SNUNR) is smaller than 5000
- Measure Unit (VIBDMEAS-MEASUNIT) equal to 'M2'
- Remove Duplicate Value

File Name

- "UNITMEASURE" with Date, Time. Eg: UNITMEASURE_YYYYMMDDHHMMSS.txt.TXT

5. Part of building

- Read part of building details from table TIV1B where language equal to english.

File Name

- "LOCATION" and Date, Time ex LOCATION__20111220_052025.TXT

6. Contract Class

- Read domain values from domain 'ZRECNCCLASS' using FM GET_DOMAIN_VALUES

File Name

- "CLASS" and Date, Time ex CLASS_20111220_052025.TXT

7. Contract Category

- Read domain values from domain 'ZRECNCAT' using FM GET_DOMAIN_VALUES

File Name

- "CATEGORY" and Date, Time ex CATEGORY_20111220_052025.TXT

8. Contract THEME

- Read domain values from domain 'ZRECNCAT' using FM GET_DOMAIN_VALUES

File Name

- "THEME" and Date, Time ex THEME_20111220_052025.TXT

9. Business Entity

- Read Business entity name from VIBDBE where project number equal to selection screen project number.

File Name

- "PROJECT" with Date, Time. Eg PROJECT_20111220_052025.TXT

10. Company

- Read company name from T001 where company code equal to company code from selection screen.

File Name

- "ENTITY" with Date, Time ex ENTITY_20111220_052025.TXT

11. Lease Perform

- Read information from RE contract(VICNCN) and BP relationship (VIBPOBJREL)

Extraction Logic

- Get contract information from table VICNCN by passing values for company code, project number, contract start date, contract end date from selection screen and contract type (VICNCN- RECNTYPE) not equal to Z100, Z320 and Z220.
- Read Business Partner information from table VIBPOBJREL with BP Role (VIBPOBJREL-ROLE) 'TR0600','Z024' and 'Z025'. Join with table VICNCN for the following column VICNCN-INTRENO and VIBPOBJREL-INTRENO.
- Contract no (VICNCN- RECNNR) start with Alphabet 'C' (Parameter Driven)

File Name

- "LEASEPERFORM" with date and time, eg: LEASEPERFORM_YYYYMMDDHHMMSS.txt.TXT

12. Object Assignment

- Get company code, business entity, rental object and etc from table object assignment (VIBDOBJASS), rental object (VIBDRO) and RE contract (VICNCN)

Extraction Logic

- Read from object assignment (VIBDOBJASS) with column object number (VIBDOBJASS-OBJNRSRC) and join with RE contract (VICNCN) with column object number (VICNCN-OBJNR).
- Read from assignment (VIBDOBJASS) with column object number (VIBDOBJASS-OBJNRTRG) and join with rental object (VIBDRO) with column object number (VIBDRO-OBJNR)
- **Contract no (VICNCN- RECNNR) start with Alphabet 'C' (Parameter Driven)**

File Name

- "LEASEUNIT" with Date, Time. Eg LEASEUNIT _20111220_052025.TXT

Once output files are ready, we can transfer to FTP server via

FTP

1. Open FTP server using function module FTP_CONNECT, pass values for user id, password, Host name and RFC name = 'SAPFTP'.
2. Open specific folder in FTP server using FM FTP_COMMAND, pass value for command. Example to open file path **cd SAP/VIVO**
3. Transfer Text file to ftp server using FM FTP_R3_TO_SERVER, where file name = output file name ex: **Category _20111220_052025.TXT** and text file.
4. Does step 3 for each output file.
5. Close FTP server using FM FTP_DISCONNECT.

Application Server

1. Mount a physical directory from FTP Server to SAP server. Mapping name as "/interface/DCS"
2. Open connection to FTP server using open dataset SAP function using value in file path
3. Transfer text file to ftp server via FM f_download_apps
4. Does Step 3 for each output file.
5. Disconnect to FTP server using Close Dataset SAP function.

Local PC

1. Download the text file into local pc using value in file path.
2. Output file will be stored locally.
3. Require manual transfer of the file stored locally to FTP server.

1.2. Development Type

Choose the development Type

Development Type:	☐ Report Workflow	☒ Interface	☐ Conversion	☐ Enhancement	☐ Form	☐
--------------------------	---------------------------------------	--	----------------------------------	-----------------------------------	----------------------------	-----------------------

1.3. Development tool

Choose the development Tool

Development Tool:	☒ ABAP Workflow	☐ Report painter	☐ Smart forms	☐ User exit	☐ Portal	☒
--------------------------	--	--------------------------------------	-----------------------------------	---------------------------------	------------------------------	----------------------------------

1.4. Impacted Systems

Place an 'X' next to the appropriate software package or business, to indicate all of the software packages or business systems that will be impacted with this development requirement. For example, an interface between SAP ECC 6 and Source would require an 'X' next to both SAP ECC 6 and Source.

Software Package:	☒ SAP ECC 6	☐ BI	☐ Portal	☐ Other (List Name)
--------------------------	---	-----------------------------	---------------------------------	--

1.5 Processing Options

Specify general processing options

Processing Mode:	☒ Batch	☐ Online
Frequency:	☐ Annually ☐ Quarterly ☐ Monthly ☐ Weekly ☒ Daily ☐ Other _____	
Lifetime of development	☒ Permanent ☐ Temporary, e.g. until Go-live, specify details _____	

2. Enhancement Information/Custom Screens

This section provides information relevant to the identified enhancement being requested via this functional specification. (Note: This section will be deleted if the functional specification is not for an enhancement.)

2.1. Summary

Name of Enhancement:	Not Applicable
Enhancement Type:	☐ User Exit/Customer Function ☐ BADI ☒ Custom Transaction
Attachment:	☒ No ☐ Yes - Filename: _____

2.2. SAP Object(s) or Process (es) to be enhanced:

List the SAP object(s) or transaction(s) to be enhanced. Include the GUI (Web, BSP, Win, etc.) to be used for portal display.

N/A

2.3. Enhancement Description

Provide a written description of the functionality that needs to be developed. Identify/describe the SAP application transaction that uses or is used to invoke the enhancement. Describe tables, transactions, reports, forms, screens and other objects that need to be created or modified. Complete the report/form or interface/conversion sections as appropriate to provide additional details. For portal development, list I-views and pages (new, existing or enhanced) to be used and include navigation information (e.g. side and top menus, etc.).

Please refer to the below attachment on functional specifications on programming logic for the reference of the developer: (the high level logic of fields in the PO form is documented in Section 1.1 for reference of Mapletree business users)

2.4. Selection Screen

Describe the selection screen for the report, form or program. Specify fields for selection and describe the validations/checks needed after the user has entered the selection criteria.

Interface Program to transfer RE contract from Sap to FTP server

File Transfer Protocol

☐ FTP

User ID

Password

FTP Sever

RFC Destination

☒ Application Server

☐ Local PC

File Format

File Path

Retrieval Parameter

Company Code	1012	to		
Project Number	100000	to		
Building Number	110000	to		
Contract No	C*	to		
Contract Start Date		to		
Contract End Date		to		
Contract Type	Z100	to		
Usage Type	5000	to		
BP Role	TR0600	to		
Floor		to		

Select should have three options:

1. FTP login information

Field Title	Mandatory	Reference Field	Default Value	Group	Field Type
User ID	X	Char (30)			Parameter
Password	X	Char(30)			Parameter
FTP Server	X	Char(64)			Parameter
File Format	X	Char (1)- Drop Down List Box	VIVO/ARC		VIVO/ARC CRS

2. Application Server
Open connection to the FTP server via input value in parameter file path
3. Local PC
Output the file into local PC via the input value in paratmer file path.

Output file names and path

Field Title	Mandatory	Reference Field	Default Value	Group	Field Type
Company Code	X	T001-BUKRS			Select-option
Project Number	X	VICNCN-BENOCN			Select-option
Building		VIBDRO- SGENR			Select-option
Contact No		VICNCN-RECNNR			Select-option
Contract Start Date		VICNCN-RECNBEG			Select-option
Contract End Date		VICNCN-RECNEEND1ST			Select-option
Usage Type		VIBDRO-SNUNR			Select-Option
Floor		VIBDRO- SSTOCKW			Select-option
File Path	X	Char (100)			Parameter

2.5. Custom table

Specify the custom table structure to be created for the report

Custom structure need to be developed for each out file format. There are two type of format

- i) VIVO/ARC
- ii) CRS

VIVO/ARC

1. Contract (File Name – LEASE_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample Value
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VICNCN- BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100000
Main Contract	VarChar	13	VICNCN- RECNNRCOLLECT	
Business Partner	Varchar	10	VIBPOBJREL-PARTNER	200000010
BP Start Date	Date		VIBPOBJREL- VALIDFROM OR VICNCN- RECNBEG (If VALIDFROM has no value)	10/12/2007
BP End Date	Date		VIBPOBJREL- VALIDTO (if no value must default it to 31/12/9999)	09/12/2011
Rreference No	VarChar	20	VICNCN- RECNTXTOLD	VC-F00027C-003
Contract Name	Varchar	60	VICNCN- RECNTXT	STANDARD CHARTERED BANK
CommencementDate	Date		VICNCN- RECNBEG	10/12/2007
ExpiryDate	Date		VICNCN- RECNEEND1ST	09/12/2011
Theme	Varchar	4	Blank	

ClassID	VarChar	4	VICNCN-ZZCLASS	F&B
CategoryID	VarChar	4	VICNCN-ZZCATEGORY	Food
ContractNo	VarChar	20	VICNCN-RECNR	C100000-00100
TerminationDate	Date		VICNCN- RECNOTPER	01/01/2014 if no value provide 10 spaces
Status	VarChar	1	JEST- STAT. (If value found for 10076 than 'D' else 'A') D-Deleted A-Active	D
CollectSales	VarChar	1	VICNCN- SRRELEVANT (If value = 'X' then "Y" else "N")	Y

2. Business Partner (CUSTOMER.txt)

Customer	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
Business Partner	Varchar	12	BUT000- PARTNER	20001234
BusinessName	VarChar	60	BUT000- NAME_GRP1 + BUT000- NAME_GRP2 (Truncate after characters 60)	STARBUCKS COFFEE SINGAPORE PTE LTD
Contact Person	Varchar	60	Blank	
Contact No	Varchar	20	Blank	
Email	Varchar	60	Blank	

3. Rental Object (UNIT_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDRO- BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100001
RO Number	VarChar	60	VIBDRO- SMENR	130476
Unit ID	VarChar	255	VIBDRO- XMETXT	#01-01
Level	Numeric	12	Last 2 digits of VIBDRO- SSTACKW	01

4. Measurement (UNITMEASURE_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDRO-BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100000
RO Number	VarChar	60	VIBDRO- SMENR	130325
Start Date	Date	60	VIBDMEAS- VALIDFROM. (If no value should default it to 01/01/1900)	01/01/2009
End Date	Date	60	VIBDMEAS- VALIDTO. ((If no value should default it to 31/12/9999)	31/12/2999

Floor Area	Numeric	12,2	VIBDMEAS- MEASVALUE	30
------------	---------	------	---------------------	----

5. Contract class (CLASS_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
Class Code	Varchar	4	Read Domain value "ZRECNCCLASS"	ADPR
Description	Varchar	60	Read Domain value "ZRECNCCLASS"	MEDIA /ADVERTISING /PR

6. Contract Category (CATEGORY_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	Sample Value	FileName
Indicator	Char	1	'D'	D
Category Code	Varchar	4	Read Domain value "ZRECNCAT"	ACCE
Description	Varchar	60	Read Domain value "ZRECNCAT"	ACCESSORIES

7. Lease Unit (LEASEUNIT_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDRO-BUKRS	112
ProjectID	VarChar	20	VIBDRO- SWENR	0208
RO Number	Varchar	12	VIBDRO- SMENR	1300000
Contract No	VarChar	12	VICNCN- RECNR	C100000-00492
UnitID	VarChar	60	VIBDRO- XMETXT	#01-28A
CommencementDate	Date/Time		VIBDOBJASS- VALIDFROM OR VICNCN- RECNEG. ((If VALIDFROM has no value)	01/05/2007
EndDate	Date/Time		VIBDOBJASS- VALIDTO OR VICNCN- RECNEGABS. If VALIDTO has no value)	06/10/2011

8. Company (ENTITY_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	T001-BUKRS	1012
Description	VarChar	255	T001-BUTXT	VivoCity Pte Ltd as Trustee of VivoCity Trust
Currency	VarChar	5	T001-WAERS	SGD

9. Business Entity (PROJECT_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDBE- BUKRS	1012
ProjectID	VarChar	20	VIBDBE- SWENR	100000
Description	VarChar	255	VIBDBE- XWETEXT	VICOCITY

All file with Trailer

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'T'	T
No of record	Numeric	12	No of records in the Body	10

CRS

1. Contract (File Name – LEASE_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample Value
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VICNCN- BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100000
Unique No	VarChar	13	VICNCN- INTRENO (Substring from position 5 to 13)	100000103
Unique No	Varchar	10	VICNCN- INTRENO (Substring from position 5 to 13)	100000103
Rereference No	VarChar	20	VICNCN- RECNTXTOLD	VC-F00027C-003
Contract Name	Varchar	60	VICNCN- RECNTXT	STANDARD CHARTERED BANK
CommencementDate	Date		VICNCN- RECNEG	10/12/2007
ExpiryDate	Date		VICNCN- RECNEG1ST	09/12/2011
Theme	Varchar	4	Blank	

ClassID	VarChar	4	VICNCN-ZZCLASS	F&B
CategoryID	VarChar	4	VICNCN-ZZCATEGORY	Food
ContractNo	VarChar	20	VICNCN-RECNNR	C100000-00100
TerminationDate	Date		VICNCN- RECNOTPER	00/00/0000
Status	VarChar	1	Hard Coded value '1'	1
CollectSales	VarChar	1	VICNCN- SRRELEVANT (If value = 'X' then "Y" else "N")	Y
Summary Flag	Char	1	Hard Coded Value "D"	D

2. Business Partner (CUSTOMER.txt)

Customer	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
Business Partner	Varchar	12	BUT000- PARTNER	20001234
BusinessName	VarChar	60	BUT000- NAME_GRP1 + BUT000- NAME_GRP2 (Truncate after characters 60)	STARBUCKS COFFEE SINGAPORE PTE LTD
Contact Person	Varchar	60	Blank	
Contact No	Varchar	20	Blank	
Email	Varchar	60	Blank	

3. Rental Object (UNIT_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDRO- BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100001
Unique No	VarChar	60	VIBDRO- XMETXT	#01-01
Unit ID	VarChar	255	VIBDRO- XMETXT	#01-01
Level	Numeric	12	Last 2 digits of VIBDRO- SSTACKW	01
Part of Building	Varchar	4	VIBDRO-SGEBT	NWING
Unused column	Char	1	'0'	0
RO Number	Varchar	13	VIBDRO- SMENR	130476

4. Part of building (LOCATION_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D

Location	VarChar	4	TIV1B – SGEBT	North wing
Description	Varchar	60	TIV1B- XGEBM	North wing

5. Contract class (CLASS_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
Class Code	Varchar	4	Read Domain value "ZRECNCCLASS"	ADPR
Description	Varchar	60	Read Domain value "ZRECNCCLASS"	MEDIA /ADVERTISING /PR

6. Contract Category (CATEGORY_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	Sample Value	FileName
Indicator	Char	1	'D'	D
Category Code	Varchar	4	Read Domain value "ZRECNCAT"	ACCE
Description	Varchar	60	Read Domain value "ZRECNCAT"	ACCESSORIES

7. Contract Theme (THEME_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	Sample Value	FileName
Indicator	Char	1	'D'	D
Theme Code	Varchar	4	Read Domain value "ZRECNCAT"	ACCE
Description	Varchar	60	Read Domain value "ZRECNCAT"	ACCESSORIES

8. Lease Unit (LEASEUNIT_YYYYMMDDHHMMSS.txt)

ColumnName	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VIBDRO-BUKRS	112
ProjectID	VarChar	20	VIBDRO- SWENR	0208

EndDate	Date		VIBDOBJASS- VALIDTO	06/10/2011
Termination Date	Date		VIBDOBJASS- VALIDTO	06/10/2011
Flag	Char	1	'1'	1

9. Company (ENTITY_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
-------------	-----------	--------	------------	--------

Indicator	Char	1	'D'	D
EntityID	VarChar	4	T001-BUKRS	1012
Description	VarChar	255	T001-BUTXT	VivoCity Pte Ltd as Trustee of VivoCity Trust

10. Business Entity (PROJECT_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'D'	D
ProjectID	VarChar	20	VIBDBE- SWENR	100000
Description	VarChar	255	VIBDBE- XWETEXT	VICOCITY

11. Lease Perform (LEASEPERFORM_YYYYMMDDHHMMSS.txt)

Column Name	Data type	Length	SAP Column	Sample Value
Indicator	Char	1	'D'	D
EntityID	VarChar	4	VICNCN- BUKRS	1012
ProjectID	VarChar	20	VIBDRO- SWENR	100000
Unique No	VarChar	13	VICNCN- INTRENO (Substring from position 5 to 13)	100000103
Unique No	Varchar	10	VICNCN- INTRENO (Substring from position 5 to 13)	100000103
ContractNo	VarChar	20	VICNCN-RECNNR	C100000-00100
CommencementDate	Date		VICNCN- RECNEG	10/12/2007
ExpiryDate	Date		VICNCN- RECNEG1ST	09/12/2011
Frequency	Char	1	'M'	M
Value	Numeric	12	0	0

All file with Trailer

Column Name	Data type	Length	SAP Column	Sample
Indicator	Char	1	'T'	T
No of record	Numeric	12	No of records in the Body	10

2.6. Data Selection/Validation

Specify the data that the report, form or program should select and any filter criteria

This section will not be applicable as the development of the form is based on the programming logic as detailed in Section 1.1.

2.7. Output/Screen Layout

Describe the data that should appear on the report, form or program. Attach a sample layout of the report or form or program if available.

File Transfer from SAP to FTP server	
Contract Details are transferred from SAP table VICNCN to FTP server	File: e:\inetpub\ftproot\sap\in\VICNCN_20111125_123210.TXT
Business Partner Details are transferred from SAP table BUT000 to FTP server	File: e:\inetpub\ftproot\sap\in\BP_20111125_123215.TXT
BP & Object Relationship are transferred from SAP table VIBPOBJREL to FTP server	File: e:\inetpub\ftproot\sap\in\VIBPOBJREL_20111125_123218.TXT
Rental Objects are transferred from SAP table VIBDRO to FTP server	File: e:\inetpub\ftproot\sap\in\VIBDRO_20111125_123221.TXT
Measurement details are transferred from SAP table VIBDMEAS to FTP server	File: e:\inetpub\ftproot\sap\in\VIBDMEAS_20111125_123224.TXT
Part of building description are transferred from SAP table TIV1B to FTP server	File: e:\inetpub\ftproot\sap\in\TIV1B_20111125_123227.TXT

Text file are on FTP server:

The screenshot shows a Windows Explorer window with the address bar set to E:\inetpub\ftproot\SAP\IN. The left pane shows the folder structure, with the 'IN' folder selected. The right pane displays a list of files with columns for Name, Size, Type, and Date Modified. The files listed are:

Name	Size	Type	Date Modified
VICNCN_20111125_123210.TXT	64 KB	Text Document	11/25/2011 12:29
BP_20111125_123215.TXT	10 KB	Text Document	11/25/2011 12:29
VIBPOBJREL_20111125_123218.TXT	36 KB	Text Document	11/25/2011 12:29
VIBDRO_20111125_123221.TXT	22 KB	Text Document	11/25/2011 12:29
VIBDMEAS_20111125_123224.TXT	29 KB	Text Document	11/25/2011 12:29
TIV1B_20111125_123227.TXT	1 KB	Text Document	11/25/2011 12:29
JEST_20111125_123230.TXT	792 KB	Text Document	11/25/2011 12:29

A Notepad window is open, displaying the contents of the file VICNCN_20111125_123210.TXT. The text in the Notepad window is a table with 5 columns: IS, 1007, a long string of zeros, IS, and a long string of zeros. The text is repeated for each row of the table.

2.8. Standard Text

Provide the name of the standard text and or use of SAP standard text functionality to be included in the form.

This section will not be applicable as there are no standard texts used as all the text displayed in the PO will be maintained in Custom Table 1 highlighted in section 2.5.

2.9. Exception Handling Rules

Specify instructions to be followed when errors occur or when any processing occurs outside of the normal process flow.

This section will not be applicable as there are no exceptions.

2.10. Security Requirements

Specify how access to the new development is going to be restricted, what user roles will have access and if authorization checks will be required. Is encryption required?

An authorization object to maintain the entries of the custom table which is detailed in Section 2.5, thus, only user roles which are assigned this authorization object is able to create/change/delete entries in the custom table.

2.11. Additional Information

Provide addition information regarding the development item as appropriate.

This section will not be applicable as there is no other information in regards to this development.

3. Unit Testing

This section provides information relevant to test the development.

Please refer to section 3.1.

3.1. Test Scenario

Briefly specify the unit test scenario to test the development, and include the master and transaction data required to carry out the testing.

Test scenario	Test steps	Expected Result
1.	- Specify ftp user id = sap_svc, password=Sap123456, host Name = vcifftp02, RFC Destination = SAPFTP, File Format = vivo/arc - Specify file path E:\INETPUB\FTPROOT\SAP New Interface\VIVO - Enter company code 1012 - Enter project number 100000	9 files will be transferred to FTP server. Please refer Appdendix A for the file content
2. Run this transaction code as background Job	- Specify ftp user id = sap_svc, password=Sap123456, host Name = vcifftp02, RFC Destination = SAPFTP, File Format = vivo/arc - Specify file path E:\INETPUB\FTPROOT\SAP New Interface\ARC - Enter company code 1012 - Enter project number 100002 - Enter Floor < 4	9 files will be transferred to FTP server. Please refer Appdendix B for the file content
3.	- Specify ftp user id = sap_svc, password=Sap123456, host Name = vcifftp02, RFC Destination = SAPFTP, File Format = CRS - Specify file path E:\INETPUB\FTPROOT\SAP New Interface\CRS - Enter company code 1012 - Enter project number 100000	11 files will be transferred to FTP server. Please refer Appdendix C for the file content
4.	Check all contract no in Lease unit file and ensure it is in Lease file	No of contract in lease file and lease unit file is identical
